

Mandatory Professional Licensure Disclosure- Aeronautical Science Professional Pilot

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. SUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role SUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Effective July 1, 2024, federal regulation (34 CFR 668.43) requires institutions of higher education to make a determination whether a Title IV eligible academic program that leads to professional licensure or certification meets the educational requirements for licensure/certification in the U.S. State where the institution is located and the U.S. States where "distance education" students are located at the time of initial enrollment in the program, as well as U.S. States where the program is advertised as meeting such requirements, and if applicable, the U.S. State where students attest they intend to be licensed/certified.

In accordance with U.S. Department of Education licensure disclosure requirements, Farmingdale State College records the location of prospective and current students. Farmingdale tracks this location to determine if licensure disclosure requirements are needed in the following instances:

- At the time a prospective student goes through the process of admission
- At the time of initial enrollment in an academic program designed or advertised as leading to licensure required for employment in an occupation:
 - When a student enrolls at the university for the first time
 - When a student changes their academic program
- At the time a current student formally updates their local address information

This Disclosure is strictly limited to Farmingdale State College's determination of whether its educational program, Bachelor of Science in Aeronautical Science: Professional - that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for flight ratings.

Farmingdale State College has designed an educational program curriculum for a Bachelor of Science in Aeronautical Science: Professional Pilot - that if successfully completed **is sufficient to meet** the licensure and certification requirements determined by the Federal Aviation Administration for the following certificates and ratings in all 50 states and territories: **Private Pilot Certificate, Instrument Rating, Commercial Pilot Certificate, Certified Flight Instructor (CFI) Certificate, Multi Engine Land, Mutli-Engine Instrument Land, Multi Engine Instructor.**

Farmingdale State College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards, and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity to review all licensure and certification requirements imposed by their state(s) of choice.**
