HOW TO OPT-OUT OF THE FIRST™ DAY/INCLUSIVE ACCESS FEE

First Day™ course materials are digital versions of the physical textbook that may include additional educational resources such as workbooks, problem sets, tutorials, video, simulations, and interactive software. Digital textbooks have many features that allow the student to interact with course content like never before. Depending on the course materials used, features may include highlighting, annotation, search functions, and multimedia links. All First Day™ materials are easy to access through the Learning Management System (LMS). First Day™ allows students to have access to the materials on or before the first day of class.

The courses and amounts are listed on the Farmingdale State College website on the [Lab/Course and First Day™ /Inclusive Access Fee](#) Information page.
